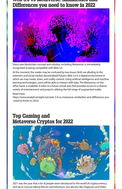
Web 3.0 vs Metaverse: Similarities and Differences you need to know in 2022



Web 3.0 vs Metaverse: Similarities and Differences you need to know in 2022

In the moment, the reader may be confused by two issues. Both are alluding to the internet's future and are frequently mentioned in the same breath. Metaverse and Web 3.0 are two very distinct ideas. Even as web 3 refers to the next generation of the internet, the metaverse is a virtual world that is powered by the internet. Web 3 is a framework, while Mars is a location. What does it resemble when these two ideas are combined? Let's look at the similarities and differences between Web 3.0 and the metaverse to help you better understand the two.

Web 3.0 is the next generation high-tech internet. It is a metaverse marketplace and differences you need to know in 2022.

INDUSTRY NEWS

'Encanto' wins for Best Animated Feature at 79th Golden Globe Awards

With minimal ceremony and no live broadcast – the awards were announced on Twitter – the Golden Globes 2022 have announced the winners in the film category. The Best Animated Feature award went to Disney's Encanto, while Jane Campion's The Power of the Dog won the Best Director award. Kenneth Branagh's Belfast won the Best Screenplay award, while Jessica Chastain and Nicole Kidman won the Best Actress awards.

Encanto, which is the 60th Disney animated feature film, is the story of the Madrigal family who live in a magical house in the Colombian mountains. The film is directed by Byron Howard and Jared Bush and features the voices of Stephanie Beatriz, John Leguizamo, Maluma, Jessica Darrow, Mauro Castillo, Adassa, Rhenzy Feliz, Diane Guerrero, Carolina Gaitán, Wilmer Valderrama, Angie Cepeda and Mandy Moore.
